POSTER TEMPLATE
3:4 PORTRAIT

Drag your design into the file you opened and pay attention to the following:

1. Your design is in the 'Your Design' folder

2. Your design fills the layer exactly (the edges disappear below the red line)

3. The red border doesn't cover any important elements

4. The 'Tutorial (DEACTIVATE BEFORE EXPORT)' layer is deactivated

5. The 'Bleed allowance (DEACTIVATE BEFORE EXPORT)' layer is disabled

6. RGB is selected as the color profile

7a. When you're all set, save your design under 'File > Export > Export as...' in PNG format

7b. choose 'use Artboard' for export and export with a resolution of 200ppi
